Monday	07/08/2017	AM		Setup for next HIE ISOLDE run	IS601				
		PM							
		night							

Summary of week: IS553 takes stable ^{22}Ne . Target change on GPS, Monday if target ready. Setup continues on HRS. Stable beam to VITO either Monday or Tuesday. Proton scan either Tuesday/Wednesday. IS601 take Ar beams once ready. Intervention on GPS.FC490 towards end of week, if possible.

(GPS): # 608 Ta GdB6. Online this week. Setup and physics in week 32.

Setup @ 30.2kV.

(HRS): Target #596 CaO for Ar beams to VITO. Setup at 50kV. Responsible for target: Joao Pedro (please contact him for any advice on appropriate temperatures etc). Stable beam to VITO Monday/Tuesday.

Protons: NORMHRS

Responsible: Emanuele (167813) till Tuesday 01/08 (AM). Erwin (164585) until Tuesday (08/08) AM.
