**Summary of week:** HRS: running on Kr/Ar until Tuesday morning. Then setup for IS619: 15C to XT03 continues. Yield checks on GPS Tuesday.

(GPS): # 613 CaO VD7. Setup at 30kV. 15C (molecular) to XT03.

NORMGPS.

Responsible for target: Joao Pedro. Please contact him before any heating of target takes place. Yield checks Tuesday. Probable outgassing after going online

(HRS): Target #610 VD7 Setup at 50kV. Responsible for target: Jochen/Ferran ISOLTRAP taking 48Ar/98Kr until Tuesday AM.

#565 online on Thursday to check vacuum and to heat/outgas; unit to be used in week 36.

Protons: NORMHRS to HRS till Tuesday morning. Thereafter NORMGPS.

Responsible: Alberto (167538) until Tuesday (22/08) AM. Miguel (169616) till Tuesday 29/08 (AM).
