Berlin, 12 July 2013

Dear Dr. Deicher,

Against the backdrop of your Letter of Interest to the ISOLDE and Neutron Time-of-Flight Committee regarding VITO – Versatile Ion-polarized Techniques On-line at ISOLDE (former ASPIC UHV beamline) from 29 May 2013, HZB is willing to cede its property of the equipment ASPIC to the Universität des Saarlandes.

The few necessary details will be stipulated in a donation agreement to be concluded.

Sincerely yours,

Dr. Bernd Meißner
